

KARAN BHOSALE

Software Developer | Java Backend Developer | Spring Boot Developer

karan.bhosale.dev@gmail.com | +91 9309993571 | Mumbai, India | [LinkedIn](#) | [GitHub](#) | [Portfolio](#)

PROFESSIONAL SUMMARY

Third-year Computer Engineering student and Java Backend Developer with hands-on experience building RESTful APIs and backend services using Java, Spring Boot, and SQL/NoSQL databases. Two internships in Java and Android development, with practical exposure to OOP, the Collections Framework, Git/GitHub, and the end-to-end SDLC. Currently deepening skills in Data Structures & Algorithms, microservices architecture, and secure API design (JWT/OAuth2), with a growing focus on FinTech backend systems. Seeking a Software Developer / Java Developer role to apply strong problem-solving ability and a track record of shipping functional, production-style projects.

TECHNICAL SKILLS

Languages: Java, Python, JavaScript, SQL

Backend: Spring Boot, Spring Security, Spring Data JPA, REST API Design, Microservices, JWT, OAuth2, Java EE

Frontend: HTML5, CSS3, Bootstrap, XML

Databases: PostgreSQL, MySQL, MongoDB, Firebase Realtime Database

Tools & Cloud: Git, GitHub, Maven, Android Studio, AWS (EC2, S3), Google Cloud, Firebase

Core CS: OOP, Data Structures & Algorithms, DBMS, SDLC, API Design

PROFESSIONAL EXPERIENCE

Java Developer Intern | SaiKet Systems

Feb 2026 – Mar 2026 | Remote

- Developed modular Java components applying OOP principles, the Collections Framework, and File I/O operations for data handling.
- Collaborated using Git and GitHub across the full pull request lifecycle — branching, commits, and code review — following standard engineering workflows.
- Gained hands-on exposure to full-stack application architecture and the end-to-end Software Development Life Cycle (SDLC).

Android Developer Intern | Navyug Infotech Ltd.

Jun 2023 – Jul 2023 | Satara, India

- Built and delivered 2 Android applications from scratch — a student progress tracker and an event planner — covering UI design through backend integration.
- Designed and implemented 15+ reusable UI components in XML paired with Java-based business logic in Android Studio, following MVC principles.
- Integrated Firebase Realtime Database and Firebase Authentication, enabling secure, role-based access and improving app responsiveness.
- Maintained project repositories and coordinated development workflow using Git/GitHub across both applications.

PROJECTS

Bank Management System (In Progress) — Spring Boot · Spring Security · JWT · Spring Data JPA · PostgreSQL · Maven

- Building a backend banking application with Spring Data JPA for persistence and PostgreSQL as the relational database.
- Implementing JWT-based authentication and Spring Security for secure, token-based access control on RESTful API endpoints.
- Applying Spring Validation for request integrity and Spring Mail for account/notification workflows, following clean, maintainable code practices with Lombok.

GitHub: github.com/Karanbhosale18/Bank_Management_System

Event Planner App — Android Studio · Java · XML · Firebase

- Designed and built a complete Android application for event discovery and planning with personalized recommendations.
- Implemented Firebase Realtime Database for instant event updates and Firebase Authentication for secure, role-based access.
- Developed an admin-controlled event approval workflow with full CRUD detail management for venue, schedule, and ticketing data.

GitHub: github.com/Karanbhosale18/EventPlannerApp

Student Management & Assistance App — Android Studio · Java · XML · Firebase

- Built a dual-module Android application with separate student and teacher dashboards for attendance and academic tracking.
- Integrated Firebase Realtime Database for live attendance synchronization and in-app notice distribution across both modules.
- Designed a cloud-backed data layer ensuring secure, reliable academic record access across concurrent user sessions.

EDUCATION

B.E. in Computer Engineering — Atharva College of Engineering, Mumbai

2024 – 2027 (Ongoing)

SGPA — Sem 3: 9.48 | Sem 4: 8.83 | Sem 5: 8.13

Diploma in Computer Engineering — K.B.P Polytechnic, Satara

Oct 2021 – Jun 2024

Percentage: 88.17%

CERTIFICATIONS

- Python & Java: Master Backend & Frontend Web Developments — Udemy (Sara Academy), Feb 2026
- Foundations of Web Development: CSS, Bootstrap, JS, React — Udemy (Proper Dot Institute), Jan 2026
- AI Agents for Beginners — Simplilearn SkillUp, Apr 2025
